**G** x3

**I** x6

With assistance, flip your unit carefully over on it's feet.

Flip Unit

23

**W** x2

**J** x4

Ensure that the edge is flush to the top of the wood.

24

⚠ Ensure that the bottom bridges (U) are sitting flush inside of your front post channels.

25

26

27

**B** x1  
BRD082

**R** x2

Ensure that wood board (**B**) is inserted first followed by a plastic spacer (**R**) on each side.

Ensure that they are slid to the bottom of the channel.

28

**B** x7  
**BRD082**

**E** x1  
**BRD114**

**R** x14

! Alternate wood boards and plastic spacers, finishing with Gate Door Bottom Board (**E**).

29

Repeat steps 26-29 to  
create second gate

31

H x2

Ensure your gate is flush with Front Bridge Board (C). Use Gate Stopper (W) to help hold gate standing up.

Z-2

Using the included drill bit **(Z-2)**, use your hinge as a template to place your six holes on the side of your gate.

33

Front Side

35

**Z** x2

Front Side

Repeat steps 30-35 to  
install second gate

37

Z-1 x1

! Ensure your gate's flush with the top of your unit by lowering or raising the Caster Wheel (S) by using wrench (Z-1).

## ADJUSTING **CASTER WHEEL** HEIGHT

If the wheel is not contacting the ground, use one hand to hold the bottom portion of the caster while rotating the wrench until the wheel firmly contacts the ground.

Warning: Handle carefully,  
not to pinch fingers.

39

**X** x2

**Y** x4

Do not be alarmed you will have additional hardware leftover.  
We have included additional hardware as a courtesy to you.
